

LED Brick Light (Vertical)

Please read these instructions thoroughly before use and retain for future reference.

Safety Information

- Installation must be carried out in accordance with national building and wiring regulations.
- If you are in any doubt about installing this product, please consult a qualified electrician.
- Before commencing installation or maintenance, turn off and isolate the circuit to be worked on by removing the fuse or switching the circuit breaker off at the distribution board.
- This luminaire is suitable for connection to a 220-240Vac 50/60Hz supply.
- This luminaire is a **Class I** product requiring an **Earth** connection and is **IP65** rated for outdoor use.
- If you connect the luminaire to independent sensors or time switches, ensure that the control device does not leak a voltage across the luminaire in the off state. Leaked voltages may accumulate and cause intermittent flashes in the off state.
- When drilling holes take care not to damage existing wiring or pipework.

Installation Information

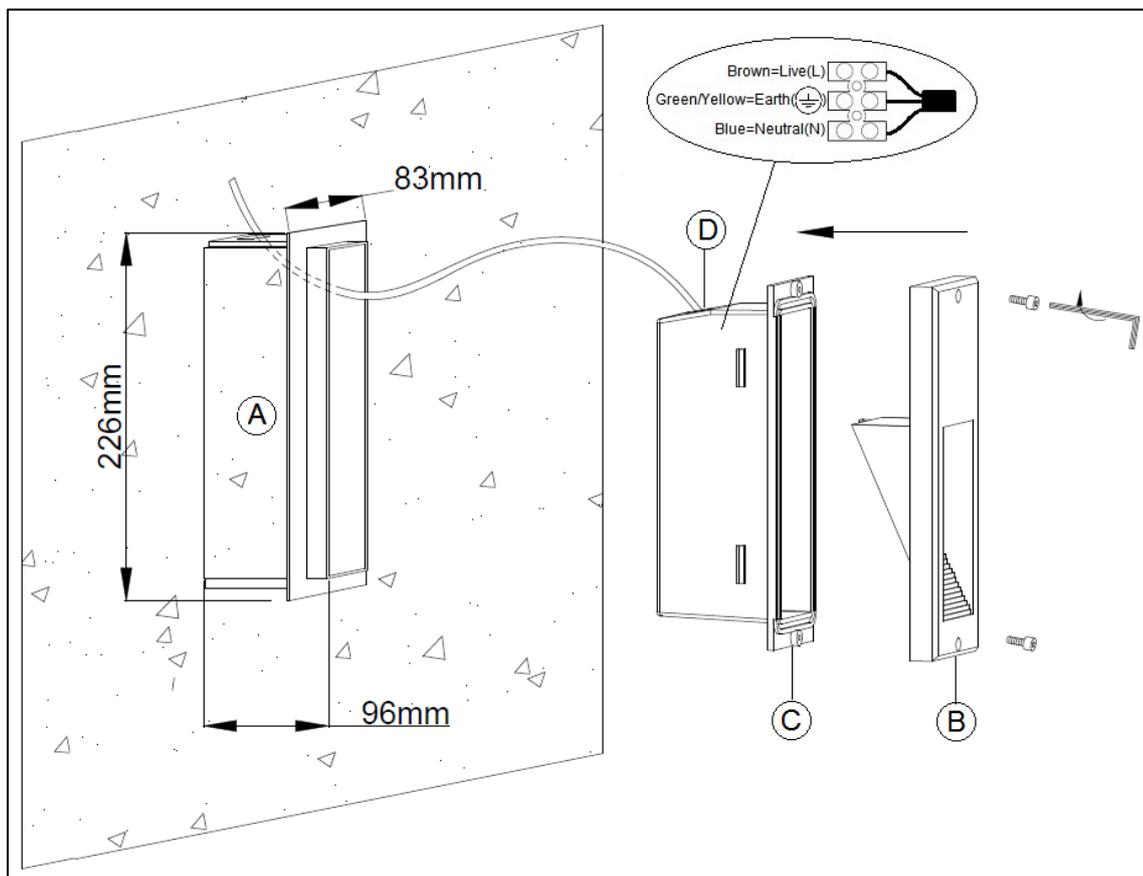

- The housing, main body and cover should only be installed as oriented in the diagram.
- Feed the supply cable through the entry into the housing (A) leaving enough slack to work with and then set the housing into the mounting surface.
- Leave the housing to set in place as necessary.
- Unscrew and remove the cover (B) from the main body (C).
- Feed the supply cable through the grommet in the main body and connect to the terminals as follows:

Brown = Live (L)

Green/Yellow = Earth ()

Blue = Neutral (N)

- Check that all electrical connections are tight with no loose strands.
- Refit the lighting cover, taking care over the sealing.
- Fit the main body into the housing.
- Turn the power supply back on.

The Waste Electrical & Electronic Equipment Regulations (WEEE) require that products bearing this symbol must not be disposed of with household waste as they may contain substances harmful to the environment. The Local Authority can provide advice on recycling.
